To Whom it May Concern;

The Marcelin Recreation Board is a non-profit organization within the Village of Marcelin community and surrounding areas. We provide recreation for youth, families, minority groups, and families with members with disabilities as well as seniors. We have only one park in the community and it has not been upgraded in many years. We have many families with young children in the community and area, therefore a safe and upgraded park is needed. It is also the only outdoor area for picnics for families and seniors to access.

We plan to build up existing land and install a new play structure, swing set and fence. We would also like to upgrade the picnic area as well as a walkway around for exercise to be used for all ages. Grass, flowers, and foliage will be planted to bring the whole area together.

We have secured grant funding to begin the upgrade to our Village park and playground. Our goal is to make this area an appealing and enjoyable place within our community for residents of all ages to enjoy.

This is a large project and will require assistance in many areas. Any financial donations would be greatly appreciated. We will be starting early preparations such as removing the old equipment and landscaping this spring. **If you can help, please contact or send donations to: Marcelin Recreation Board C/O Leanne McCormick, Secretary, P.O. Box 39; Marcelin, SK; S0J 1R0**

We are in the process of developing a timeline for this project. We plan to be completed the project by June, 2017. Thank you for your support!!
